

ASSEMBLY INSTRUCTIONS

Item Number: N604P306172/N604P306173

This set comes in 2 boxes. If you do not receive a full 2 boxes, please contact our customer service.

BED 90*190cm

INSTRUCTIONS

IMPORTANT-READ CAREFULLY-RETAIN FOR FUTURE REFERENCE

- a) **WARNING** -Children can become trapped between the bed and the wall, the adjoining pieces of furniture (e.g. cupboards) and the like. To avoid risk of serious injury the distance between the safety barrier and the adjoining structure shall not exceed 90 mm or shall be more than 230 mm.
- b) **WARNING**-Do not use the bed if any structural part is broken or missing; Replacement parts are between requested from the manufacturer or the store.
- c) **WARNING**-Do not climb or wiggle on any non-designated structures.
- d) it is imperative to always follow the installation instructions and manufacturer's use.
- e) The recommended size of the mattress to be used with the bed is 190cmx90cm, maximum thickness mattress:20cm.
- f) It is necessary to ventilate the room in order to maintain a low level moisture and prevent mold growth in the bed and its periphery.
- g) Joining devices should always be tightened properly and regularly verified. Tighten if necessary.

DE: Vor dem Einbau die Schrauben in die Löcher stecken und festziehen, aber nicht bis 100%, 70% bis 80% anziehen reicht aus. Schließlich, nachdem alle Schrauben installiert sind, ziehen Sie alle Schrauben auf 100 %.

Wenn Sie auf diese Probleme stoßen, wie z. B. Fehlausrichtung der Löcher oder Unfähigkeit, bestimmte Teile zu installieren, überprüfen Sie bitte, ob die Schrauben korrekt verwendet werden und passen Sie die Dichtigkeit der Schrauben an.

UK: Before installation, insert the screws into the holes and tighten them, but do not tighten them to 100%, 70% to 80% is sufficient. Finally, after all screws are installed, tighten all screws to 100%.

If you encounter these issues, such as if the holes cannot be aligned or some parts cannot be installed, please check if the screws are used correctly and adjust the tightness of the screws.

FR: Insérer la vis dans le trou avant la fin de l'assemblage, serrer la vis, mais ne pas serrer à 100%, 70% ~ 80% est correct. Enfin, une fois que toutes les vis sont bien serrées, toutes les vis sont serrées à 100%.

Si vous rencontrez ces problèmes, par exemple si les trous ne sont pas alignés ou si certaines pièces ne peuvent pas être montées, vérifiez que les vis sont utilisées correctement et Ajustez leur serrage.

Question: What to do if the slat frame is tilted?

Answer:

The hole on the hydraulic rod is oval. Please make sure that the installation positions on the left and right sides are the same. If you accidentally install one side of the hydraulic rod in the front and the other side in the back, the slat frame will be crooked and you will need to disassemble it and reinstall it.

Question: What to do if the hydraulic system fails to press down?

Answer:

When turning off the hydraulic pressure, make sure that the pressure point is at the position indicated by the arrow. Place your hand at the pressure point.

If you place the mattress on a slatted frame, it will be easier to turn off the hydraulic pressure. Please try it.

Do not press only on the left side or only on the right side, as this will damage the hydraulic system.
